

ODE ITC Call – 2/6/2023

*Notes provided by Naja Bailey (META) and Gretchen Martin (ACCESS)*

**FY23 Collections opening this week** – The Final collection windows for both the Exiting Student Follow-up and Staff and Course Collections are opening later this week (Thursday, February 9th). This week also marks the start of several assessment collections; Spring Alternate Assessment, Career Tech Accountability Assessment, and Other Accountability Assessment Collections all open on Thursday, February 9th.

**EMIS Change Call** – As a reminder, we are having the EMIS change call this Wednesday. There are a number of FY24 changes that will be posted between now and Wednesday that will be reviewed during the call.

**FY23 Change 23-143** – There was a relatively recent FY23 change regarding Disability Condition option 16 - Developmental Delay and reporting this information. A change in state law allows this to be reported for any student who is 3-9 years old regardless of grade level. Once a student turns 10, a disability condition other than “16” must be reported. Previously, this option was only allowed for preschool students. If districts had this disability condition listed for students who, because of age or transition to kindergarten, were coded with the “16”, they would not have been funded to this point, but now they can be. This change was retroactive to the start of the school year, and districts can start reporting the “16” immediately. A Level 1 warning will still appear if the student's age was previously “over age”, but ODE will work towards getting that warning removed from the manifest; districts can ignore that warning. Data will get through to ODE and districts will begin to receive funding in the next payment. This change # 23-134 is out for public comment, but because the law changed, ODE has made the adjustment knowing they will accept it.

**Upcoming Call Schedule**

Tuesday, February 21 – ODE ITC Call (moved from Feb. 20 due to Holiday)

Wednesday, February 8 – ODE Change Call

Thursday, February 9 – Vendor Call
