

ODE ITC Call – 10/30/2023

Notes provided by Naja Bailey (META) and Gretchen Martin (ACCESS)

FY23 Graduation Appeals – The FY23 Graduation appeal windows closed last Friday, October 27: <https://education.ohio.gov/Topics/Data/EMIS/Reporting-Responsibilities/Data-Appeals/Past-Data-Appeals>

- 1) *Graduation Appeals* are starting to be worked on, so districts who filed appeals should hear something this week or next. The FY23G collection will reopen for those districts if that was part of their appeal.
- 2) *Graduate Cohort Appeals* take a little time to work through, but the team is working on that and will get back to districts as soon as possible.

FY23 Graduation Data Review – Open Monday October 30 through Friday November 10. All districts who reported graduates should be going in and completing a data review for their graduation data. The superintendent is *legally required* to complete and approve most of the EMIS Data Review & Verification forms. <https://education.ohio.gov/Topics/Data/EMIS/Reporting-Responsibilities/EMIS-Data-Review-Verification>

FY24 EMIS Changes – A couple FY24 EMIS Changes added new FN elements. Sometime in the next 1-3 weeks, near the end of this week or at most by the end of the week of November 13, ODE will add these elements to the FY24S manifests. If your SIS hasn't added those elements yet you'll see Warnings on the collection for now, but data will still be collected.

- 1) #24-13 *Tier 2 Dyslexia Screener Results* (districts probably don't have any students at that level yet, but that should happen throughout the school year)
- 2) #24-116 *Count of Graduation Credits at Entry* (districts should be working to get this information for each student as of the start of the year)

For more information on EMIS Changes: <https://education.ohio.gov/Topics/Data/EMIS/EMIS-Documentation/EMIS-Changes-1/Fiscal-Year-2024-Changes>

FY24 Funding – When ODE went to live funding, they focused on Base FTE, K-12 Special Ed FTE, and Economic Disadvantage FTE, and giving districts a heads-up when the data didn't look quite right when compared to the previous year. For the December payment, ODE is planning on rolling in FY24 data for Gifted Identification FTE, Career Tech FTE, and Preschool Special Ed FTE, so that data must be submitted by the end of November. See the payment schedule for dates:

<https://education.ohio.gov/getattachment/Topics/Finance-and-Funding/School-Payment-Reports/State-Funding-For-Schools/Traditional-School-Districts/FY24-Foundation-Payment-Dates.pdf.aspx?lang=en-US>

Q&A

Q: A district is having transportation issues, so in November they'll have to adjust their hours per day. They have their DL set for their middle school and high school. Is that a case where at the beginning of the year they'll have a Start/Stop Date for those particular hours and then when they make a change they'll do a new one because they'll reduce their time?

A: Those two calendars will need to cover the whole year as if they're going for the whole year, so the calendars will need to have the minimum number of hours. The kids will just shift from one calendar to the other. A helpdesk ticket would be better.

Q: Do you know what is going on between ODDEX and the colleges? The CCP courses are non-reviewable due to colleges not reporting?

A: Colleges have been reporting but ODE is having issues getting data from Higher Ed. We started getting data on Friday and hope to get the data in ODDEX later this week. Higher Ed updated the servers the data is on which caused some downstream things to not work, but we think it is resolved.

Q: Is there funding tied to the new related services program code reporting?

A: No there is not. That reporting is for program and monitoring purposes, not for funding.

Upcoming Call Schedule

Monday, November 13 – ODE ITC Call

November ODE Change Call has been **cancelled**
