

ODEW EMIS-ITC Call – 4/29/2024

Notes provided by Gretchen Martin (ACCESS) and BreAnn Blubaugh (LACA)

Collections – The Midyear Student Collection closed on Friday, April 26th. The End of Year Student Collection (FY24) and Graduation Collection (FY24) are opening on Thursday, May 2nd.

ODDEX Performance– There have been a few reports from ITCs stating that ODDEX performance is running slow across the entire site. After some research, the issue is caused by a mapping issue within DNS reverse look-up. ITCs' IT departments will need to research and resolve this. A document will be shared with ITCs regarding this. Please share this document with your IT department and have them review it and check the settings at the ITC level to determine if your ITC has this issue as well. ITCs can work directly with the Management Council if there are issues. Specific contact information is provided in the document.

EMIS Roadmap – Data Collector – Some ideas were shared ideas for a 3 to 5-year roadmap for the Data Collector. This is about mapping out big things that need to be done or we would like to see that will take multiple years to complete. The EMIS Roadmap will also be discussed at the OAEP Conference as well and will discuss ideas that came up during the conference at the next conference call.

Upcoming Call Schedule

Wednesday, May 8th – ODEW Change Call

Thursday, May 9th – Vendor Call

Monday, May 13th – ODEW ITC Conference Call
